Ladybug Foundation Education Program Template: Atlantic Provinces

Overview

- Students will become aware of how people live in order to meet their basic needs.
- Students are encouraged to express interest in the experiences of others and discover their connections to the people around them.

Social Studies

Process: Inquiry

- Solve problems creatively and critically.
- Apply a variety of thinking skills and strategies.
- Recognize significant issues and perspectives in an area of inquiry.
- Identify sources of information relevant to the inquiry.
- Draw conclusions that are supported by evidence.

Key Stage Curriculum Outcomes:

Citizenship, Power, and Governance

- Demonstrate an understanding of equality, human dignity, and justice
- Demonstrate how individuals and groups can influence decision making
- Recognize that individuals and groups have different perspectives on public issues
- Take age-appropriate actions to demonstrate their responsibilities as citizens

Culture and Diversity

- Identify some characteristics unique to one's self and characteristics that all humans share
- Identify groups to which they belong
- Give examples of stereotypes, discrimination, and pressures to conform and how they affect an individual

Individuals, Societies and Economic Decisions

- Distinguish between needs and wants.
- Give examples of economic decisions made by individuals and families.

- Explain the role of money in everyday life and give examples of how people earn, save and spend income.
- Identify various factors that influence their decisions as consumers.

Enduring Understanding

In your community, there are people who do not have their basic needs met.

An Inquiry Into:
Everybody has needs.
