

Senior Years – makeChange 2 Poster Image

Poster Notes

This photograph was taken during the filming of the **“Make Change”** music video. Although he is an actor, at one time his real life story mirrored this scene. Struggling to make ends meet, and having made a few bad choices, he was left with so little that he found himself getting food from food banks and soup kitchens, and sleeping on park benches. His personal story is a great reminder that despite challenging times, there is always hope for a better tomorrow. He no longer calls the streets “home.”
